Provides an Extra Bounce

Crown Mats' [Alleviator II antifatigue mats](#) are manufactured with Zedlan™, the patented foam that provides extra bounce to stimulate muscles and blood flow, helping to reduce fatigue.

These mats are specially designed to maintain their flexibility even in low temperatures.

With a distinctive yellow border, the Alleviator II is designed to discharge static, helping to protect electronic components from damage.

Use the Alleviator II mats in light- to medium-duty dry areas such as factories, assembly lines, service desks, or any standing workstations.

For more information, visit www.crown-mats.com or call toll-free: 800-628-5463.

About Crown Mats and Matting

For more than 60 years, Crown Mats and Matting has been a pioneer in the development and manufacture of matting products. Beginning with the invention of walk-off matting by the company's founder, R.P. Johnson, the company now has the

most diverse matting product line offered in our industry. Crown sells matting through an extensive network of highly trained sales representatives throughout the United States and worldwide. These sales experts are familiar with the features and benefits of all matting systems and are able to help their clients find the right system for virtually any application.
