

Heavy-Duty Matting System for Industrial Locations

Crown Mats and Matting's Wear-Bond™ Deck-Top matting system is designed for medium- to heavy-use dry industrial locations but is perfect for work stations and cashier stations as well.

This system is five times more abrasion resistant than 3/8-inch sponge matting, with 50 percent greater puncture resistance.

What's more, users report 28 percent greater overall comfort with Wear-Bond Deck-Top matting when compared to diamond-plate sponge-backed mats.

And Wear-Bond Deck-Top matting costs just a little more than 3/8-inch sponge but 25 percent less than diamond-plate matting.

For more information, visit www.crown-mats.com or call toll-free: 800-628-5463.

About Crown Mats and Matting

For more than 60 years, Crown Mats and Matting has been a pioneer in the development and manufacture of matting products. Beginning with the invention of walk-off matting by the company's founder, R.P. Johnson, the company now has the most diverse matting product line offered in our industry. Crown sells matting through an extensive network of highly trained sales representatives throughout the United States and worldwide. These sales experts are familiar with the features and benefits of all matting systems and are able to help their clients find the right system for virtually

any application.
